The camp is led by Zsa Zsa Tudos, author, philosopher, educator, international speaker and clairvoyante. She has been teaching the mysteries of the world and the universe for 35 years. Her intellectual property is AKIA Philosophy that covers the interrelations within the universe, human behaviour and the amazing gifts we all have. The core of this wisdom on Earth is in Ancient Egyptian understanding.

Zsa Zsa's story

"Life is an extraordinary journey. It is full of challenges and unsolved tasks that are put in front of us on the constantly moving and changing road towards Nirvana, the place that today we refer to as Happiness.

My life hasn't been different. Due to family upheavals, I have been in charge of my choices since the age of 14. I put myself through high-ranking academic education and left my homeland for a strange country on a one-way road. When

the old door firmly closed behind me, it opened up many new ones. I travelled the world, lived in different countries on different continents, learned new languages, new behaviours, new traditions, new religions and went through new relationships. I struggled, enjoyed, laughed, cried, loved and hated on the roller-coaster that I managed to hang onto with the help of the rock-hard faith in myself.

I understand that life only gives us challenges we are able to handle, cleverly pushing us out of the comfort zone to taste the fresh air and new experiences around. I established that regardless of the background, upbringing, religion, colour and education, under those layers we all are very similar and have the same goal. The approach might be different but the aim is Happiness.

On my journey, I learned about the interrelated micro- and macrocosm. I became a REIKI Master-Healer, an Initiated Witch, an Orixa Shamanic Master, and a Phoenix Initiated Educator. With all these lessons, healing the mind and body became a natural addition to my capabilities.

Today, I have an established philosophy - I call AKIA - that searches for the interaction between earthlings and nature, also Earth and the universe. I have eleven books published and many faithful students. I am an Intimacy & Family coach and help people to find their purpose. The joy of seeing them succeed gives me the strength to find new adventures and learn from new experiences.

I believe that learning is the only way to understand life and us within, and this unique knowledge makes us or breaks us at the end. It is naïve to assume that all that we do here comes instinctively. Yes, to the *what to do* however, the *how to do* needs deeper comprehension, courage and confidence. I also understand that being in a relationship is rather a tool than a necessity towards finding the yellow brick road that leads to the fulfilment and ultimately to Happiness. Hang on there!”

The camp is in the Nubian Luxor, with authentic accommodation, 3 meals a day prepared for you by our chef from totally bio products, and water.

After the 5 days of intensive training, you have 1 day of exploring the wonders of the temples, such as Luxor temple, Karnak temple, Medinat Habut and Hatchepsut temple, all included in your journey.

We pick you up at the airport in Hurghada or if you happened to be here, at your residence and transport you to the camp in Luxor. Also, bring you back at the end of the journey.
